

ROLL-ON CONTRACTS

Remi makes it easy with **ONE** contract and **ONE** renewal date to manage saving you valuable time on Equipment Maintenance Management.

.....

HOW IT WORKS

Remi's Equipment Maintenance Management Program (EMMP) starts when your first manufacturer service agreement expires.

JUNE 1, 2018

You start the Remi EMMP upon the expiration of your first contract.

SEPTEMBER 10, 2018

Your next service agreement expires. Remi adds that equipment to your current EMMP at a pro-rated rate.

OCTOBER 15, 2018

Additional service agreements expire. You will roll on that equipment to your current EMMP on a pro-rated basis.

DECEMBER 1, 2018

Final service agreement expires. Remi adds your expiring equipment to your current EMMP.

JUNE 1, 2019

Remi's service agreement is for a 12 month period. All equipment rolled-on to Remi's EMMP during 2018 will renew at the same time.

REMI[®]

ONE contract. ONE renewal date.
